DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on January 23, 2006 has been entered.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the overall claimed combination of an absorbent garment comprising a unitary fastening member comprising at least two independently movable and integrally formed tab members each having an engagement portion that releasably and refastenably engages a front body panel wherein the tab members extend laterally inward in the same direction from the same one of a side edge of the front body panel and are offset from each other in the longitudinal direction wherein each fastening members is non-integral with and formed separately from the body panel has neither been anticipated nor rendered obvious by the prior art of record.

Likewise, an absorbent garment with a pair of unitary fastening members each comprising at least two independently movable and integrally formed tab members each

Art Unit: 3761

having an engagement portion that releasably and refastenably engages a front body panel wherein the tab members extend laterally inward in the same direction from the same one of a side edge of the front body panel and are offset from each other in the longitudinal direction wherein each fastening members comprises a carrier member and wherein opposite seams are laterally spaced from attachment locations has neither been anticipated nor rendered obvious by the prior art of record.

Further, an absorbent garment comprising a fastening member comprising a unitary carrier member defining at least two independently movable and integrally formed tab members each having an engagement portion that releasably and refastenably engages a front body panel wherein the tab members extend laterally inward in the same direction from the same one of a side edge of the front body panel and are offset from each other in the longitudinal direction wherein the carrier member is non-integral with and formed separately from the body panel has neither been anticipated nor rendered obvious by the prior art of record.

Similarly, an absorbent garment comprising a unitary fastening member with or without a carrier member comprising at least two independently movable and integrally formed tab members each having an engagement portion that releasably and refastenably engages a front body panel wherein the tab members extend laterally inward in the same direction from the same one of a side edge of the front body panel and are offset from each other in the longitudinal direction wherein the fastening member is fixedly secured to the body panel and the tab members have a free edge positioned laterally inward from the location of the fixedly secured fastening members.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
